

Joint venture to create 20 jobs for Iowa in Boone

Two central Iowa companies have formed a joint venture to provide business services, such as packaging and distribution, to agricultural companies.

APC Inc. of Ankeny and PDM Distribution Services Inc. of Des Moines formed the new company, Agri-Pak, which will blend and package dried ingredients for livestock feed, said Terry Goodman, president of PDM.

Agri-Pak will be based in Boone, and PDM will run its daily operations. The business is scheduled to open in mid-May. Officials expect it to create up to 20 jobs within two years.
